

Spicer[®] Electrified[™] e-Hub Drive

ES10H

Benefits

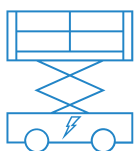

- A fully integrated electro-mechanical system
- Compact length providing great design flexibility
- Enhanced gear design for quieter operation
- Advanced motor technologies for higher efficiency with compact size and weight

Features

- Utilize proven Spicer[®] Torque-Hub[®] drive design
- 2-stage e-hub
- IP54 to IP67 intrusion ratings dependent on motor selection
- Integrated parking brake

Ideal for Mobile Elevated Work Platforms

Market-Driven **Electrified Innovations**

The Dana family of products continues to deliver solutions for Mobile Elevated Work Platforms

20 Years of Proof

For two decades, Dana products have solved electrification challenges for Mobile Elevated Work Platform (MEWP) manufacturers. These solutions have been proven effective time and again in enhancing efficiency and reducing total cost of ownership.

Market-proven electric drives for propulsion

World-class capabilities and expertise for wherever you are in your electrification journey

- Electrified solutions for both drive and motion systems
- Engineered for the challenges of a wide range of MEWP applications, including the requirements of urban worksites
- Dana's expanded product line includes motors engineered to support a wide range of input voltage.
